smartwater meets or exceeds the requirements set forth by the U.S. Food and Drug Administration as well as local regulatory requirements.

A 2018 sample water quality analysis for smartwater is listed below.

smartwater vapor distilled purified water ANNUAL ANALYSIS EXAMPLE

To demonstrate compliance with the United States Food and Drug Administration’s (FDA) bottled water standards, The Coca-Cola Company annually analyzes smartwater vapor distilled purified water to ensure that our consumers are receiving safe and purified water of the highest quality.

The following tables provide an example of a typical annual smartwater vapor distilled purified water analysis, conducted by an Independent Certified Laboratory. This water analysis demonstrates that smartwater vapor distilled purified water is in full compliance with bottled water quality standards.

Please note that in the results column of each table “ND” indicates Non-Detected.
